Merchant Mobile POS Activation

1, Download or Get the OAB Mobile Pay APK for Android.

2, Install the same in the Android 10 or Above with NFC enabled Mobile.

3, After the Document process from OAB side merchant will receive the Verification OTP in their official mobile number given to the bank which is valid for **3 Hrs**.

4, Merchant should use the OTP with in 3hrs .

In case if OTP expired ask Bank to resend the Verification OTP.

5, After the OTP received open the OAB Mobile pay app in the mobile and it will landed like below screen.

6, Click Enter Verification Code

7, it ask for 4Digit Supervisor password which is used for void and refund transaction by the merchant.

8, After that merchant Device will registered with OAB and secure connection will establish device ready to make the transactions.

Note: Incase this process not finished and app not opened it may be system find vulnerability in the device or Jail break mobile or some kind of harm full app may installed in the mobile.

In that case kindly use different mobile or contact Bank.

9, After the device register successfully it will take to below transaction page.

Merchant can do the transaction as normal POS.

10, Enter the amount and click next -> Hold the card back side of the Mobile where the NFC is placed (Based on the model).
